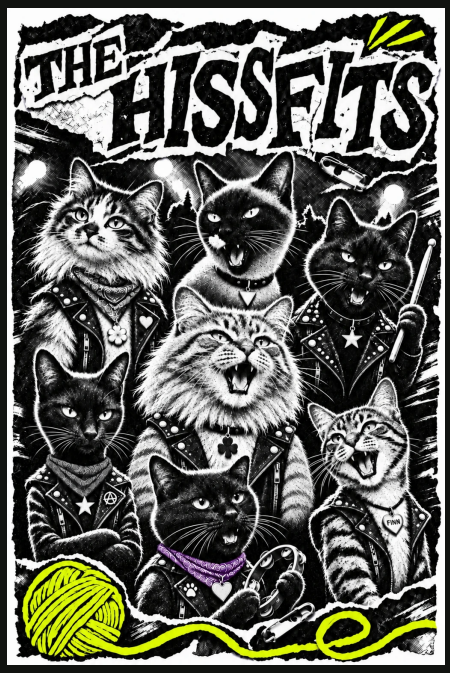
# THE HISSFITS UNSUPERVISED



**THE SERIES / NATI + EDDIE**

## Seven cats. One garage. Zero supervision.

**Adult animated punk musical mockumentary series.**

When their moms aren't watching, seven cats turn the family's garage studio into a secret punk band and take on a world that needs more supervision than they do.

### THE PILOT / WHO LEFT YOU IN CHARGE?

One visitor. One song. That was the plan. A growing audience and a wealthy tom's offer of food for strays turn a private show into a test of who gets to control the band's voice.

### THE SERIES ENGINE

Band ambition meets a problem. Seven personalities complicate it. Hiss & Tell reframes it. A song changes the stakes. Eight episodes and a song per episode are planned.

### THE SEVEN LEADS

Clyde: vocals; Peepsy: manager, vocals, tambourine; Simon (they/them): rhythm guitar; Willow: keys; Jett: bass; Coco: drums; Finny: lead guitar.

### THE CREATORS

Nati and Eddie of Just Us: Nati on drums, Eddie on guitar and vocals. Their real cats and garage studio are the roots of the show.

### THE NEXT STEP

A development conversation about producing the pilot and packaging the series.
